

Advanced Placement (AP) Environmental Science

Dear Parent/Guardian,

In an effort to “go green”, and save resources, I will communicate class information to you electronically, although I will be most happy to provide a detailed hard copy of the complete class syllabus (3 pages) upon request. Please read over the online syllabus, grading, and parent’s tips sections of my web page www.ehsscience.com in order to be aware of class expectations. Use this site as a guide for information, not as the only source of pertinent information. I am thrilled to have the opportunity to work with your son/daughter this school year. There are exhilarating class activities, and field experiences planned. AP Environmental Science is a college level course covering a basic understanding of environmental issues and resolutions, and mechanics of air, soil, and water relationships. My planning period is from 1:30-2:30pm during 7th period. My school phone number is 407-835-4900 x4293(voice mail). It is usually easier to contact me electronically so feel free to e-mail me at any time, at lopatkm@ocps.net. I will respond promptly. I am available before and after school to help your son/daughter whenever he/she has questions or problems. Please encourage your child to take advantage of extra help before and after school when necessary. Please contact me whenever you have questions or concerns, and look for periodic updates on the website and in your child’s class notebook. Please provide your email address/phone# so that I may contact you more efficiently. You may access your son/daughter’s progress through the Progress Book/ K-12 Planet system. To sign up, you need to go the EHS administrative guidance office to obtain a password.

Sincerely,

Michael Lopatka
